Introduction:

We invite you to join us again in June 2024 for a movement that will build awareness about deafblindness on a global scale.

In June 2023, over 30 installations were created in DbI's third yarn bombing initiative, with colourful, tactile displays on fences, pillars, bicycles and community spaces around the world!

Since 2021, and despite the Covid-19 pandemic, this initiative has captured the attention of communities around the world. Participants noted that engaging in yarn bombing helped them feel connected to their friends and colleagues around the world. Subsequently, knit, crochet and other community groups eagerly contributed efforts to help build awareness about deafblindness.

At the DbI 18th International World Conference held July 2023 in Ottawa, Canada, attendees were encouraged to check out yarn bombed maple leaf (a national symbol associated with Canada) structures and chairs.

Yarn bombing, which is sometimes known as 'knitfity', is a form of street art where yarn that is knit, crochet, or wrapped, adorns an object in a public space. It is thought to have originated in the United States in 2005.

By coming together to yarn bomb objects in as many cities and countries as possible in June, we strive to foster connections and unite a community with individuals, service and advocacy groups in the field, DbI members and partners, and the wider global public.

Regardless of whether your country, region, or organization celebrates deafblind awareness as a month, a week, or day, our combined efforts will create a stronger and united voice.

Why Yarn Bombing?

In 2021, 2022 and 2023 yarn bombing raised awareness about deafblindness worldwide through media coverage, social media promotion, and by captivating bystanders in participating countries, cities, and regions.

We aim to build on the success of previous years and build a larger yarn bombing movement in 2024! Increasing awareness and knowledge of deafblindness as a unique disability and influence for appropriate services around the world for people who are deafblind.

Let's connect through this exciting, fun, and creative largescale tactile art project.

In this Guide:

Thank you for registering your organization/group! This guide will help you invest your time in developing a strategy that is efficient, effective, and fun.

Please note that messaging and campaign materials are provided in DbI's official language, English. We encourage translation of these materials as required and promote accessible, inclusive formats. Fees associated with translation are not the responsibility of DbI.

You will also receive **monthly reminders** to guide your yarn bombing initiative.

Step 1: Make Your Plan (January 2024)

Here are some things to consider in the starting phase of your yarn bombing initiative:

- If you participated in previous years, consider what worked and what did not.
- Who will you work with? Will your project include groups from other cities or nearby countries? Form your yarn bombing committee or working group.
- Determine when you will start. Starting early gives you plenty of time to ensure your project goes smoothly and is successful.
- Now it's time to decide who will do what and when. We recommend creating a work plan (template on page 15) to ensure that you stay on track.
- Consider and set regular meetings leading up to June 2024 to monitor progress and build momentum about this initiative.

Step 2: Choose Your Location (January 2024)

Determine where and what object(s) you would like to yarn bomb. Consider community spaces that are popular in your country and will attract the attention of the public. This may include tourist destinations or landmarks, parks, bus stops, art and shopping districts, as well as city and town squares.

Your installation day will take place in June 2024. Choose a date that has meaning to your group or when your country celebrates deafblind awareness; is it throughout the entire month, during a week, or on a particular day.

Permits and Regulations (January - March 2024):

Yarn bombing, unless done with the permission of a host organization or private property owner, is illegal. In your planning phase, please obtain a permit or permission to yarn bomb your community object(s) of choice and be sure to follow the regulations of your area.

Step 3: Materials and Prep (January - February 2024)

You may have leftover knit or crochet squares from your projects in 2021, 2022 and 2023. If not, we recommend creating squares that are 20cm x 20cm, OR pom poms, afhgans/knit blankets, wrapping with yarn, etc. The squares should be connected well in advance of your installation day. The number of squares you need will be determined by the size of the object(s) you'll be covering.

You may also want to consider and provide options for your participants to obtain yarn and related materials. Is there a local craft store that is willing to sponsor your project and provide yarn? If not, do they have leftover materials? Is there an annual or semi-annual yarn sale nearby where you can stock up on supplies? Members of your community/local knitting groups/online buy and sell groups may also have leftover yarn from previous projects that they will donate to your initiative or can be mobilized to knit squares on your behalf. Or, request that each person that submits a knit or crochet square provide their own yarn for their part of the project.

Determine where the completed squares/yarn creations will be housed until installation day. Provide participants with this information so that they can mail or deliver their squares prior to your installation deadline.

Step 4: Get Creative! (February - Mid-May 2024)

For groups that require additional squares, the creation phase is an exciting part of this project and essential to the success of your yarn bombing initiative. Some people may not know how to crochet or knit. This project is a great opportunity for them to learn a new skill while taking part in an impactful movement.

Consider hosting regular virtual or in person ‘knit nights’, or providing participants with patterns to crochet or knit. You can also send instructional videos from YouTube, or Pinterest. Post photos of your knit nights on social media, or if virtual, screen shots of your participants creating their squares/yarn creations.

Set a deadline for submission of the squares/yarn creations in advance of your installation day in June.

Step 5: Signage (April 2024)

Prior to installation day, you will need to consider how you will indicate who created it and the reason behind it. This is key to connecting with the general public and building awareness through our global yarn bombing initiative. Some signage options:

- A simple tag made from a laminated luggage label
- Weatherproof sign
- QR code that links to a webpage about your project
- Community sign
- Retractable banner
- Vinyl banner

You may also want to consider including the project hashtag **#DbIYarnBombing2024** in your official language(s) on your signage.

Step 6: Installation Day and Lead Up (May - June 2024)

In advance of your installation day, consider the following (May 2024):

- Who will be installing the yarn bombing on the community object(s)? This should include more than one person.
- What do you need on the day of? Bring an installation kit that includes a ladder (if required), extra yarn, scissors, needles, hooks, cable ties, wire, your art tag/signage, etc. Take into account weather and the time required outside as you install your project.
- How will you promote your installation day? Where and to whom?
- Will you host any sort of event while it is being installed? Often times, people passing by will stop to watch and ask questions; this is a great opportunity to engage with the general public and share information about deafblindness.
- Consider inviting local media and dignitaries to your installation day. Prepare a media alert, media kit, and media release (templates on pages 14-15).
- Designate someone social media savvy to post and “go live” frequently on your channels throughout installation day.

On your installation day:

- **Tag DbI in your social media posts - we want to share all of the yarn bombing that takes place across the world.**
- **Take many photos and videos for later use and sharing with DbI.**

Step 7: Takedown & Wrap Up (July 2024)

We want to ensure that we are respectful to our environment and socially responsible in this awareness initiative. For this reason, it is crucial that you plan your takedown/ project deconstruction immediately following June. This will also allow you to save your squares/yarn creations for future yarn bombing projects.

Pass on a word of “thanks” to participants, volunteers, sponsors, and supporters. Consider expressing gratitude in an email or by social media (don’t forget to include photos). Evaluating our awareness campaign will provide DbI ComCom with important information about what went well and where we can improve on

future global campaigns. DbI ComCom will reach out in July 2024 with a survey to ensure a consistent evaluation.

Communication & Promotion:

In the lead up to June, communicating about your yarn bombing initiative will spread the word about the need for materials like yarn, collecting knit or crochet squares, generate awareness about deafblindness, and ultimately highlight the global nature of DbI's 2024 yarn bombing movement.

Social Media:

Please be sure to follow DbI's social media channels:

Facebook: <https://www.facebook.com/dbiint>

Twitter: [@DBI_connect](https://twitter.com/DBI_connect)

Instagram: @deafblindinternational

Hashtag: #DbIYarnBombing2024

*Please translate the above hashtag to your official language(s) and provide them on your Information Form. This will support DbI in sharing messaging specific to your project.

Sharing, connecting, and supporting one another's yarn bombing efforts is essential to the widespread success of this initiative. We ask that you share your efforts not only on installation day, but in the lead up to June ('knit nights', public calls for knit or crochet squares, capturing the process of making and collecting the squares, information about the community object(s) you are yarn bombing, in person or online events, messaging, media, stories, videos, etc.) with DbI by tagging or mentioning our channels, and, in return, sharing our social media messaging.

TIP: When posting on social media, we encourage the use of alt tags for imagery. Alt tag text is essential for web accessibility and is used by screen readers for image recognition.

Social Media by the Month:

When you confirm that you are participating in the global yarn bombing initiative (by filling out the Information Form), you will receive communications in the lead up to June 2024 from DbI ComCom. These email communications will provide you with social media materials and imagery for your use.

Below are suggested social media themes and call-to-actions you can expand on and add to each month:

Visual Materials:

Similar to past years, a series of themed images will be made available in a Google Drive for social media use. We also encourage you to create your own visuals to promote your yarn bombing initiative. These images can include a call to action for

knit or crochet squares/yarn creations, or information about your installation day and community object(s) that you will be yarn bombing.

Media Templates:

Connecting with the media is an excellent way to extend the reach of your awareness efforts and yarn bombing initiative. Consider sending a press release to local or national media, or reaching out to nearby radio stations. You may additionally want to distribute a media alert and invite local media to your yarn bombing installation day. If you secure media, please share this with DbI ComCom via social media. We would love to see and share the reach of our combined efforts across the globe!

Please see pages 14 and 15 for templates to be completed on your letterhead.

Other Awareness Building Considerations:

There are many ways to celebrate deafblind awareness month/week/day. Here are some activities to consider in addition to yarn bombing:

- Requesting town or city proclamations.
- Connecting with elected officials; shedding light on deafblindness and necessary support services.
 - Consider inviting local politicians to your installation day. Connect with k.madho@deafblindontario.com for support.

Work Plan Template:

Below is a work plan template to help your yarn bombing committee stay organized and on track in the months leading up to June 2023. Customize this to suit your group’s needs or utilize another method to coordinate your plans.
