

## **Fostering a diverse and inclusive world: no one left behind**

Carolina Cohoon & Brittany Gagnier

### **Summary**

When negativity, panic, and isolation affected our community due to COVID-19, serenity and mindfulness were key elements to bring some wellness and normality to Deafblind clients' homes.

Our common vision, mission and passionate belief to deliver a series of webinars in various modes of communication became successful within weeks. The designers raised the bar by inspiring each other to create and implement goals, brainstorm ideas, and engage a talented network of Specialists from various fields to join them in delivering micro training sessions for Deafblind and Blind learners.

Helen Keller quoted "All the world is full of suffering. It is also full of overcoming". The webinars were a the first step of a positive journey by giving a fresh and constructive perspective on life, and by fostering hope.

This webinar will discuss how to create synergy of energy, commitment, and excitement to ensure no Deafblind participant is left behind. We will also review some cost-effective and efficient accessibility and usability tips, business tools, and best practices to remove barriers clients often encounter when attending webinar events.
