

1st and Unique Conference

Deafblind International DbI is all about connecting in deafblindness.

So is this conference.

It will connect persons with deafblindness, parents, families, practitioners and researchers all across the continent and beyond.

And it will connect hands-on workshops with the latest research.

Doing so it will present 10 brand-new African research-projects, made possible by DbI's African Researchers' Initiative.

It will serve as platform and exchange hub for young researchers from all over the world by including DbI's Young Researchers' Conference.

And it will connect with the immediately preceding Helen Keller World Conference of the World Federation of the Deafblind WFDB, also taking place in Nairobi.

Karibu... – Welcome...

...to Kenya. Make sure to save the date right now:

May 12-14, 2022

The local Planning Committee is looking forward to meeting you!
